

addition, flexion of the joints of the forelimbs and hind limbs will be performed.

Under the direction of the veterinarian, the horse may be observed under saddle; therefore, we recommend bringing tack to the pre-purchase examination. Anyone who rides the horse will have to sign a waiver and must wear an ASTM approved helmet.

* **Digital Radiographic Examination: \$45.00 per view/per radiograph. (Standard package \$1,450.00). All examinations includes a CD with all the radiographs. We can take as many or as few as buyer desire. Just keep in mind, the more complete the study, the more information you will get.**

Following the moving examination, the horse will proceed to be radiographed. It is standard in our comprehensive pre-purchase examination, to remove the horse's front shoes in order to obtain the best quality radiographs of the front feet. In some occasions, if the views are appropriate, the shoes may not be removed. Exceptions will need to be discussed with the veterinarian performing the examination. We do not provide a farrier services, and arrangements to have the shoes replaced will need to be made elsewhere. A standard set of pre-purchase radiographs requires 36-40 views that includes: front feet/navicular (4 each), front fetlocks (4 each), carpus (2 each), rear fetlocks (2 each), both hocks (4 each), stifles (2 each) and dorsal spinous processes (back, 2).

Radiographic findings are described in five grades. Grade 1 (**good**) and grade 2 (**satisfactory**) are consider **ACCEPTABLE**. Grade 3 (**poor**) is consider acceptable carrying and **INCREASED RISK**. Grade 4 or 5 are **NOT ACCEPTABLE**. Radiologic findings are consider acceptable only when clinical findings justify this.

If different from the standard, please explain: _____

More radiographs, such as the elbows and shoulders, or different views, may be indicated depending on the clinical and moving evaluation. If desire, radiographs may be send to your veterinarian. All shipping charges will be at the buyer's expense. Overnight \$65.00, Regular with tracking No. \$25.00. Complete the following info if you want the radiographs to go to your veterinarian and choice the shipping method.

Veterinarian's name: _____ Ph: No: _____

Company: _____

Address: _____

Ship overnight: _____ Regular: _____ Other: _____

Early radiographs (from earlier vet exams or other reasons) are great help when available. There will be an additional charge for interpretation depending the number of radiographs.

Digital Ultrasound examination \$200.00 one leg, \$275.00 two legs.

Indicated if swelling, thickening, or sensitivity of the tendons or ligaments is palpated.

* **CBC/ Chemistry (Blood work): \$100.00**

A complete blood count (CBC) is one of the most common blood tests performed to help diagnose various infections or other abnormal conditions of the body. A chemistry additionally provides information concerning muscle enzymes, kidney, liver, and other organ function. (Please allow 2-3 working days to get the results).

* **Drug Screen: \$250.00**

Stat: \$650.00 Results available in 1-2 days

Strongly recommended. The drug screen blood work is send priority overnight; results are often available in 2-5 working days. The test includes any behavioral modification drugs, NSAID's, steroids, (painkillers, antiinflammatory drugs) and certain metabolites. The test will report the presence or absence of drugs, not

quantity. If a quantity test is desired additional cost will incur. We do not recommend storing serum for drug screens to be performed at a later date, as the testable medications may deteriorate in the sample and not provide accurate results. Urine sample will detect some medications for longer times. If desired to run an urine sample, no extra charge will be added, but it is the responsibility of the buyer/buyer agent to collect the sample. I will provide the necessary collection tubes and instructions.
